

**EMPOWERED COMMITTEE OF  
STATE FINANCE MINISTERS**

**Annual Report  
2009-2010**

**C-405, Delhi Secretariat, I.P. Estate, New Delhi-110002**

## **Contents**

1. Overview
2. Introduction
3. Empowered Committee Secretariat
4. Value Added Tax at the Central and the State level
5. Phasing out of Central Sales Tax (CST)
6. Tax Information Exchange System (TINXSYS)
7. Computerization of VAT in Himachal Pradesh and Jammu & Kashmir
8. Income and Expenditure

### **Annual Report 2009-2010**

#### **Overview**

The Value Added Tax (VAT) is considered to be a major improvement over the pre-existing Central excise duty at the National level and the sales tax system at the State level. The Goods and Services Tax (GST) will be a further significant breakthrough towards a comprehensive indirect tax reform in the country.

2. Keeping this overall objective in view, an announcement was made by Shri P. Chidambaram, the then Union Finance Minister in the Union Budget (2007-08) to the effect that GST would be introduced from April 1, 2010 and that the Empowered Committee of State Finance Ministers, on his request, would work with the Central Government to prepare a road map for introduction of GST in India. After this announcement, the Empowered Committee of State Finance Ministers decided to set up a Joint Working Group, with the then Adviser to the Union Finance Minister and the Member-Secretary, Empowered Committee as Co-convenors and the concerned Joint Secretaries of the Department of Revenue of

Union Finance Ministry and all Finance Secretaries of the States as its members. This Joint Working Group, after intensive internal discussions as well as interaction with experts and representatives of Chambers of Commerce and Industry, submitted its report to the Empowered Committee. This report was then discussed in detail in the meeting of the Empowered Committee in November, 2007. On the basis of this discussion and written observations of the States, certain modifications were made and a final version of the views of Empowered Committee at that stage was prepared and was sent to the Government of India. The comments of the Government of India were received in December, 2008 and were duly considered by the Empowered Committee. It was decided that a Committee of Principal Secretaries/Secretaries (Finance/Taxation) and Commissioners of Trade Taxes of the States be set up to consider these comments and submit their views. The views submitted by the Committee were accepted in principle by the Empowered Committee in January, 2009. Consequent upon this in principle acceptance, a Working Group, consisting of the concerned officials of the State Governments was formed who, in close association with senior representatives of the Government of India, submitted their recommendations in detail on the structure of GST. First Discussion Paper on Goods and Services Tax in India was released in public domain on November 10, 2009 in the presence of Hon'ble Union Finance Minister.

3. Immediately after the release of the First Discussion Paper, discussions were held with the Members of the Consultative Committee attached to the Empowered Committee which includes the representatives of various trade and Chamber of Commerce and industry. Views of the Government of India, State Governments

and various stakeholders on the First Discussion Paper on GST were also received during the year 2009-10.

4. The Central Sales Tax is a distortion in the implementation of VAT/GST. In view of this, serious efforts were made to phase out the Central Sales Tax further from 3% to 2%. To this end, a revised package of CST compensation was introduced by the Government of India. In this connection, during 2008-2009 several meetings were taken by the then Hon'ble Union Finance Minister. These discussions were followed up with meetings of the Empowered Committee of State Finance Ministers. With repeated and patient deliberations, certain decision could be reached as regards reducing the Central Sales Tax rate further to 2%. Accordingly, the notification reducing the CST rate from 3% to 2% with effect from June 1, 2008 was issued by the Government of India. Revised guidelines for the CST compensation were also issued on August 22, 2008. The issue regarding the further reduction of CST rate from 2% to 1% with effect from April 1, 2009 was considered by the Empowered Committee in its meeting held on 21<sup>st</sup> January, 2009 and after due consideration it was decided to retain 2% CST rate till GST is introduced.

5. During 2009-2010 wide range of VAT related activities were undertaken by the Empowered Committee. Important projects like Tax Information Exchange System (TINXSYS) and Computerization of Commercial Tax Departments of Special Category States of Himachal Pradesh and Jammu & Kashmir were taken up. These Projects would help in tracking the inter-state sales as well as make the tax administration in Special Category States more efficient and effective.

6. The introduction of VAT, phasing out of CST and preparation of Discussion Paper on GST has been the result of truly collective efforts on the basis of hard work of all the concerned officials of the States, the officials of the Empowered Committee Secretariat and the Adviser and officials of the Union Finance Ministry, the concerned and active participation of Finance Ministers and concerned Senior Ministers of the States at each stage, and the encouragement and advice of the Union Finance Minister. I am sure that cooperative federalism and this spirit of collective efforts will go a long way in helping the introduction of Goods and Services Tax in India which is the subsequent step in the sphere of tax reforms.

**Asim Kumar Dasgupta**  
Chairman,  
Empowered Committee of  
State Finance Ministers  
&  
Minister of Finance & Excise,  
Government of West Bengal

## **Introduction**

The Empowered Committee of State Finance Ministers was originally set up on 17<sup>th</sup> July, 2000 by the Government of India with the Hon'ble State Finance Ministers of West Bengal, Karnataka, Madhya Pradesh, Maharashtra, Punjab, Uttar Pradesh, Gujarat, Delhi and Meghalaya as members with an objective to monitor the implementation of uniform floor rates of sales tax by States and Union Territories, to monitor the phasing out of the sales-tax based incentive schemes, to decide milestones and methods of States to switch over to VAT and to monitor reforms in the Central Sales Tax system existing in the country. Subsequently, Hon'ble State Finance Ministers of Assam, Tamil Nadu, Jammu & Kashmir, Jharkhand and Rajasthan were also notified as the members of the Empowered Committee. On 12<sup>th</sup> August, 2004 the Government of India decided to reconstitute the Empowered Committee with all the Hon'ble State Finance/Taxation Ministers as its members.

2. Later on, it was decided to register the body as a Society under the Societies Registration Act (XXI of 1860). The registration certificate was issued on August 17, 2004. At present, Dr. Asim K. Dasgupta, Hon'ble Finance Minister, Government of West Bengal is the Chairman of the Empowered Committee and all the Ministers in charge of Finance/Taxation of all State Governments and Union Territories with legislatures, Additional Secretary (Revenue), Government of India and Member Secretary, Empowered Committee are the members of the Empowered Committee. The Empowered Committee has its office in Delhi Sachivalya, I.P. Estate, New Delhi where Government of NCT of Delhi has kindly provided accommodation and other facilities. The Society has been receiving contributions from the State Governments and Government of India to meet its administrative expenditure and undertake various other activities.

3. The Empowered Committee has been meeting regularly. It is attended by the State Finance Ministers, Finance Secretaries and Commissioners of Commercial Taxes of the State Governments as well as senior officers of the Ministry of Finance, Government of India. During 2009-10, the Empowered Committee met eleven times. The Annual General Meeting of the Empowered Committee was held on 16.12.2009.

### **Empowered Committee Secretariat**

4. Shri Satish Chandra, IAS (Retd.), former Secretary to the Government of India continued as Member Secretary, Empowered Committee during the year.

5. To strengthen the staff of the Empowered Committee, one senior level officer, Smt. Ujjaini Datta was deputed by the Government of West Bengal from Sales Tax Department to work in the Empowered Committee Secretariat. She has been designated as Officer on Special Duty and is looking after the work related to the implementation of VAT, phasing out of CST, introduction of GST, compilation and analyzing revenue figures and all other technical matters. Shri V.P. Gupta, Senior Administrative Officer, Dr. Pooja Joshi, part- time Finance Officer, Shri Kishori Lal, Principal Private Secretary and Mrs. Devindar Chopra, Private Secretary continued in the same capacity during the year.

### **Value Added Tax at the Central and the State level**

6. Prior to the introduction of VAT in the Centre and in the States, there was a burden of multiple taxation in the pre-existing Central excise duty and the State sales tax systems. Before any commodity was produced, inputs were first taxed, and then after the commodity got produced with input tax load, output was taxed

again. This was causing a burden of multiple taxation (i.e. “tax on tax”) with a cascading effect. Moreover, in the sales tax structure, when there was also a system of multi-point sales taxation at subsequent levels of distributive trade, then along with input tax load, burden of sales tax paid on purchase at each level was also added, thus aggravating the cascading effect further.

7. When VAT is introduced in place of Central excise duty, a set-off is given, i.e., a deduction is made from the overall tax burden for input tax. In the case of VAT in place of sales tax system, a set-off is given from tax burden not only for input tax paid but also for tax paid on previous purchases. With VAT, the problem of “tax on tax” and related burden of cascading effect is thus removed. Furthermore, since the benefit of set-off can be obtained only if tax is duly paid on inputs (in the case of Central VAT), and on both inputs and on previous purchases (in the case of State VAT), there is a built-in check in the VAT structure on tax compliance in the Centre as well as in the States, with expected results in terms of improvement in transparency and reduction in tax evasion. For these beneficial effects, VAT has now been introduced in more than 150 countries, including several federal countries. In Asia, it has now been introduced in almost all the countries.

8. In India, VAT was introduced at the Central level for a selected number of commodities in terms of MODVAT with effect from March 1, 1986, and in a step-by-step manner for all commodities in terms of CENVAT in 2002-03. Subsequently, after Constitutional Amendment empowering the Centre to levy taxes on services, these service taxes were also added to CENVAT in 2004-05. Although the growth of tax revenue from the Central excise has not always been

specially high, the revenue growth of combined CENVAT and service taxes has been significant.

9. Introduction of VAT in the States has been a more challenging exercise in a federal country like India, where each State, in terms of Constitutional provision, is sovereign in levying and collecting State taxes. Before introduction of VAT, in the sales tax regime, apart from the problem of multiple taxation and burden of adverse cascading effect of taxes as already mentioned, there was also no harmony in the rates of sales tax on different commodities among the States. Not only were the rates of sales tax numerous (often more than ten in several States), and different from one another for the same commodity in different States, but there was also an unhealthy competition among the States in terms of sales tax rates – so-called “rate war” – often resulting in, revenue-wise, a counter-productive situation.

10. It is in this background that attempts were made by the States to introduce a harmonious VAT in the States, keeping at the same time in mind the issue of sovereignty of the States regarding the State tax matters. The first preliminary discussion on State-level VAT took place in a meeting of Chief Ministers convened by Dr. Manmohan Singh, the then Union Finance Minister in 1995. In this meeting, the basic issues on VAT were discussed in general terms and this was followed up by periodic interactions of State Finance Ministers. Thereafter, in a significant meeting of all the Chief Ministers, convened on November 16, 1999 by Shri Yashwant Sinha, the then Union Finance Minister, two important decisions, among others, were taken. First, before the introduction of State-level VAT, the unhealthy sales tax “rate war” among the States would have to end, and sales tax rates would need to be harmonised by implementing uniform floor rates of sales tax for different categories of commodities with effect from January 1, 2000.

Secondly, on the basis of achievement of the first objective, steps would be taken by the States for introduction of State-level VAT after adequate preparation. For implementing these decisions, a Standing Committee of State Finance Ministers was formed which was then made an Empowered Committee of State Finance Ministers.

11. Thereafter, the Empowered Committee has met regularly. All the decisions were taken on the basis of consensus. On the strength of these repeated discussions and collective efforts, involving the Ministers and the concerned officials, it was possible within a period of about a year and a half to achieve nearly 98 per cent success in the first objective, namely, harmonisation of sales tax structure through implementation of uniform floor rates of sales tax.

12. After reaching this stage, steps were initiated for systematic preparation for introduction of State-level VAT. In order again to avoid any unhealthy competition among the States which may lead to distortions in manufacturing and trade, attempts have been made from the very beginning to harmonise the VAT design in the States, keeping also in view the distinctive features of each State and the need for federal flexibility. This has been done by the States collectively agreeing, through discussions in the Empowered Committee, to certain common points of convergence regarding VAT, and allowing at the same time certain flexibility to accommodate the local characteristics of the States.

13. Along with these measures, steps were taken for necessary training, computerization and interaction with trade and industry. While these preparatory steps were taken, the Empowered Committee got a significant support from Shri P. Chidambaram, the then Union Finance Minister, when he responded positively in

providing Central financial support to the States in the event of loss of revenue in transitional years of implementation of VAT.

14. As a consequence of all these steps, the States started implementing VAT beginning April 1, 2005. After overcoming the initial difficulties, all the States and Union Territories have now implemented VAT. The Empowered Committee has been monitoring closely the process of implementation of State-level VAT, and deviations from the agreed VAT rates has been contained to less than 3 per cent of the total list of commodities. Responses of industry and also of trade have been indeed encouraging. The rate of growth of tax revenue has nearly doubled from the average annual rate of growth in the pre-VAT five year period after the introduction of VAT.

15. Despite this success with VAT, there are still certain shortcomings in the structure of VAT both at the Central and at the State level. The shortcoming in CENVAT of the Government of India lies in non-inclusion of several Central taxes in the overall framework of CENVAT, such as additional customs duty, surcharges, etc., and thus keeping the benefits of comprehensive input tax and service tax set-off out of reach for manufacturers/dealers. Moreover, no step has yet been taken to capture the value-added chain in the distribution trade below the manufacturing level in the existing scheme of CENVAT. The introduction of GST at the Central level will not only include comprehensively more indirect Central taxes and integrate goods and service taxes for the purpose of set-off relief, but may also lead to revenue gain for the Centre through widening of the dealer base by capturing value addition in the distributive trade and increased compliance.

16. In the existing State-level VAT structure there are also certain shortcomings. There are, for instance, even now, several taxes which are in the nature of indirect tax on goods and services, such as luxury tax, entertainment tax, etc., and yet not subsumed in the VAT. Moreover, in the present State-level VAT scheme, CENVAT load on the goods remains included in the value of goods to be taxed under State VAT, and contributing to that extent a cascading effect on account of CENVAT element. This CENVAT load needs to be removed. Furthermore, any commodity, in general, is produced on the basis of physical inputs as well as services, and there should be integration of VAT on goods with tax on services at the State level as well, and at the same time there should also be removal of cascading effect of service tax. In the GST, both the cascading effects of CENVAT and service tax are removed with set-off, and a continuous chain of set-off from the original producer's point and service provider's point upto the retailer's level is established which reduces the burden of all cascading effects. This is the essence of GST, and this is why GST is not simply VAT plus service tax but an improvement over the previous system of VAT and disjointed service tax. However, for this GST to be introduced at the State-level, it is essential that the States should be given the power of levy of taxation of all services. This power of levy of service taxes has so long been only with the Centre. A Constitutional Amendment will be needed for giving this power also to the States. Moreover, with the introduction of GST, burden of Central Sales Tax (CST) will also be removed. The GST at the State-level is, therefore, justified for (a) additional power of levy of taxation of services for the States, (b) system of comprehensive set-off relief, including set-off for cascading burden of CENVAT and service taxes, (c) subsuming of several taxes in the GST and (d) removal of burden of CST. Because

of the removal of cascading effect, the burden of tax under GST on goods will, in general, fall.

17. The GST at the Central and at the State level will thus give more relief to industry, trade, agriculture and consumers through a more comprehensive and wider coverage of input tax set-off and service tax setoff, subsuming of several taxes in the GST and phasing out of CST. With the GST being properly formulated by appropriate calibration of rates and adequate compensation where necessary, there may also be revenue/ resource gain for both the Centre and the States, primarily through widening of tax base and possibility of a significant improvement in tax-compliance. In other words, the GST may usher in the possibility of a collective gain for industry, trade, agriculture and common consumers as well as for the Central Government and the State Governments. The GST may, indeed, lead to the possibility of collectively positive-sum game.

18. Keeping this significance of GST in view, an announcement was made by the then Union Finance Minister in the Union Budget, as mentioned before, to the effect that GST would be introduced from April 1, 2010, and that the Empowered Committee of State Finance Ministers would work with the Central Government to prepare a road map for introduction of the GST. After this announcement, the Empowered Committee, as stated earlier, had set up a Joint Working Group which submitted a report on a model and road map for GST. After accommodating the views of the States appropriately on this report, the views of the Empowered Committee on the model and road map were sent to the Government of India in April, 2008. The comments of the Government of India were received in December, 2008. These comments were duly considered by the Empowered Committee and it was decided that a Committee of Principal Secretaries/Secretaries

(Finance/Taxation) and Commissioners of Trade Taxes should consider the comments received from the Government of India and submit its views and also work out the Central GST and State GST rates. The Committee held detailed deliberations and submitted its recommendations to the Empowered Committee. The Empowered Committee considered these recommendations in its meeting held in January, 2009 and accepted them in principle. The Empowered Committee also decided to constitute a Working Group consisting of Principal Secretaries/Secretaries (Finance/Taxation) and Commissioners of Trade Taxes of all the States/UTs to give their recommendations on (a) the commodities and services that should be kept in the exempted list, (b) the rules and principles of taxing the transactions of services including the transactions in inter-State services, and (c) finalization of the model suggested for inter-state transaction/movement of goods including stock transfers. The senior representatives from the Government of India were also associated.

19. Taking into account the recommendations of the Joint Working Group consisting of Principal Secretaries/ Secretaries(Finance/Taxation) and Commissioner of Trade Taxes of all States/UTs, the views expressed by the Government of India and the States in several meetings of the Empowered Committee held during 2009 and also discussions held with the Hon'ble Union Finance Minister, the First Discussion Paper on Goods and Services Tax in India and Frequently Asked questions and Answers were released by the Empowered Committee of State Finance Ministers in the presence of Hon'ble Union Finance Minister on 10<sup>th</sup> November, 2009, inviting interaction with the representatives of industry, trade, agriculture and common people.

20. The Discussion Paper is divided into four parts. Since GST would be further improvement over the VAT, part 1 begins with a brief reference to the process of introduction of VAT at the Centre and the States and also indicates the precise points where there is a need for further improvement. This part also shows how the GST can bring about this improvement. With this as the background for justification of GST, part 2 then describes the process of preparation for GST. Thereafter, part 3 presents in detail the comprehensive structure of the GST model. For illustrating this GST model further, there is in the end an Annexure on Frequently Asked Questions and Answers.

21. Immediately after the release of First Discussion Paper on GST, discussions were held with the Members of the Consultative Committee attached to the Empowered Committee, which has the representations from the Trade Bodies and Chambers of Commerce and Industry. The Chairman, Empowered Committee also had a detailed discussion with the Confederation of All India Traders (CAIT) in November, 2009.

### **Phasing out of Central Sales Tax (CST)**

22. For introduction of VAT/GST, phasing out of CST is necessary as it is a distortion under the VAT regime. The position regarding phasing out of CST was reviewed by the Empowered Committee in its meeting held in July, 2005 and there was a view that CST should not be phased out in an abrupt manner and all its implications should be studied both by the Government of India and the State Governments. In fact, a number of States expressed their apprehension about loss of their revenue on phasing out of CST and were opposed to the same until their revenue could be protected through service tax and compensation on permanent basis. This matter was subsequently deliberated upon in several meetings of the

Empowered Committee. Crucial meetings were also taken by the then Hon'ble Union Finance Minister on several occasions to discuss this issue. During the meetings, the States were of the view that revenue loss on account of phasing out CST should be fully compensated by the Centre through adequate budgetary support. However, the then Hon'ble Union Finance Minister felt that there was need to explore various non-monetary options also for CST compensation and suggested a combination of ways/multi mechanism for generating the revenue which is likely to be lost due to CST phasing out.

23. On 22<sup>nd</sup> March, 2006 a meeting was taken by the then Hon'ble Union Finance Minister and as per decision taken in this meeting, a Technical Committee of Commissioners of VAT/Sales/Trade Taxes was set up to work out various possible options for compensation of revenue loss on account of phasing out of CST and to suggest modalities for such compensation. Subsequently, several rounds of meetings were held with the then Hon'ble Union Finance Minister and a compensation package was finalized to meet the loss on account of phasing out of CST. It was also decided that the CST should be phased out till 31<sup>st</sup> March, 2010. An announcement to this effect was made by the then Hon'ble Union Finance Minister in his Budget Speech 2007-08 that "VAT has proved to be an unqualified success. VAT revenues of the implementing States increased by 13.8 per cent in 2005-06 and by 24.3 per cent in the first nine months of 2006-07. The next logical step is to phase out Central Sales Tax (CST). The Central Government has reached an agreement with State Governments to phase out CST. Consequently, the CST rate will be reduced from 4 per cent to 3 per cent with effect from April 1, 2007. I have provided Rs.5,495 crore for compensation for losses, if any, on account of VAT and also on account of CST". Accordingly, as per the consensus arrived

between the Centre and the State Governments, the rate of CST was reduced from 4% to 3% with effect from 1<sup>st</sup> April, 2007.

24. Further deliberations were done in the Empowered Committee to discuss about reducing the rate of CST from 3% to 2% with effect from 1<sup>st</sup> April, 2008 and steps required by the Government of India and the States in this regard. An important meeting was also taken by Hon'ble Union Finance Minister on 28<sup>th</sup> January 2008 to deliberate on various monetary and non monetary measures to be adopted by states and centre so that CST can be reduced to 2%. After due discussions and deliberations, a notification reducing the CST rate from 3% to 2% with effect from 1<sup>st</sup> June, 2008 was issued by the Government of India. Revised guidelines for the CST compensation were also issued on 22<sup>nd</sup> August, 2008. The issue regarding the further reduction of CST rate from 2% to 1% w.e.f. April, 1, 2009, was considered by Empowered Committee in its meeting held on 21<sup>st</sup> January, 2009 and after due consideration it was decided to retain the 2% CST rate till GST is introduced.

### **Tax Information Exchange System (TINXSYS)**

25. As stated earlier, in the context of introduction of VAT, Central Sales Tax (CST) is a distortion and needs to be phased out. However, before phasing out the CST, it is essential to put in place an effective system of tracking of inter-state transactions. To achieve this goal, Empowered Committee, in consultation with the Government of India, had decided to have a technology based computerized system viz. Tax Information Exchange System (TINXSYS). The key objective of the Project is to obtain information related to inter-state trade and prevent fraudulent transactions through spurious statutory forms and thereby tax evasion. The scope of the TINXSYS is two fold, i.e. tracking of inter-state transfer of goods

and tracing them to a valid registered selling or purchasing dealer alongwith statutory form and implementation of business intelligence and reporting requirements.

26. With this objective in sight, a project proposal was prepared with an estimated outlay of Rs.32 crores. The 50% of this expenditure is to be borne by the Government of India and the remaining 50% by the States.

27. M/s Ernst & Young was appointed as the Consultant for the project and M/s 3i-Infotech was engaged as Service Provider. The project commenced on 1<sup>st</sup> November, 2004 on a Build-Own-Operate-Transfer basis. Till 31<sup>st</sup> March, 2010, the following facilities were commissioned as part of the project:

- (a) TINXSYS Data Centre and Disaster Recovery Site were set up in Thane, Maharashtra and Chennai, Tamil Nadu respectively.
- (b) Nationwide Interactive Voice Response facility is accessible through toll-free number.
- (c) Dedicated network providing connectivity between Empowered Committee office and Headquarters of Commissioner, Trade Tax Departments of 30 States/Union Territories along with VoIP facility for conferencing has been made available on real time basis.
- (d) TINXSYS website with facility for verification of dealer information has been made available.
- (e) Dealer data migration has been completed for most of the States.
- (f) In most of the States/Union Territories, IT and non-IT equipments have been installed.
- (g) The Service Provider has developed B-Spoke Software Application. The portal and application is hosted on the World Wide Web through an

authorized domain name, which was provided by the Empowered Committee.

- (h) The Service Provider has implemented the one time activity of data conversion.
- (i) The Service Provider is providing a centralized dataware housing solution TINXSYS at Data Centre Thane.
- (j) As the Tax Information Exchange System carries a sensitive Government data, the Service Provider has developed its application considering various security measures in order to provide adequate security at all levels.
- (k) The Service Provider has carried out training to the respective State CTD employees as well as the Empowered Committee staff at technical and functional level. The training has been provided in phases to the employees to ensure that adequate attention is paid to each employee. During the financial year 2009-2010, training was imparted to over 180 officers taking the total number of officers trained in the system to nearly 2,000 across all CTDs.
- (l) Considering the nature and importance of the project, the Service Provider is giving uninterrupted support to various types of activities through dedicated call centre.
- (m) The service provider has provided interconnectivity between TINXSYS and State VAT system in all the computerised Commercial Tax Departments. This has created a platform for seamless exchange of dealer and form related information between CTDs. This would also automate the process of extraction of data from State database to TINXSYS database.
- (n) The TINXSYS website has crossed over 1 million hits during the financial year 2009-2010. During this year a total of 2.3 lakhs dealer records and 71.5

lakhs form records were added to TINXSYS taking the total dealer and form records in TINXSYS to 33.2 lakhs and 1.95 crores respectively.

- (o) During the financial year 2009-2010 over 15 MIS reports were newly developed and moved to the internet domain so as to be available to all tax officers.
- (p) During the financial year 2009-2010, the ISO 27001 certification of the TINXSYS Data Centre was renewed and extended till 2012.

28. The initial 5 years contract with the Service Provider and the Consultant of this project expired on 31.10.2009. This was extended for another one year with the approval of the Empowered Committee of State Finance Ministers.

#### **1.1.1 Computerization of VAT in Himachal Pradesh and Jammu & Kashmir**

29. It was decided by the Government of India to fund the computerization of Trade Tax Departments of Special Category States of Himachal Pradesh and Jammu & Kashmir. The responsibility of implementation of this project was given to the Empowered Committee.

30. In the first stage, it was decided to appoint a consultant who would carry out a review of the existing computerized system in the Department and suggest system changes required to meet the needs of VAT, assess the additional hardware, software, network and security requirements for VAT administration, undertake monitoring of the project and prepare a detailed tender so that an experienced and appropriate vendor could be identified. After bidding process was over, M/s PricewaterhouseCoopers was short listed for appointment as consultant for the Project.

31. M/s PricewaterhouseCoopers prepared the Request for Proposal (RFP) on the basis of which tenders were invited. In response to the RFP three tenders were received. M/s Tata Consultancy Services was selected as Implementation Partner for the VAT Computerization of Commercial Tax Departments of Himachal Pradesh and Jammu & Kashmir.

### **Income & Expenditure**

32. Empowered Committee does not have its own source of income except income from bank interest. The Committee mainly generates its income from the funds provided by the Government of India and the contributions received from the States/Union Territories. During the financial year 2009-2010, the Empowered Committee received annual contribution of Rs.68 lakhs from the States/Union Territories and Rs.50 lakhs from the Government of India to meet the administrative expenses of the Empowered Committee.

33. For installation of Tax Information Exchange System, a contribution of Rs.1,29,15,000 was received from various States/Union Territories. A contribution of Rs.3 crores was also received from the Government of India for the same purpose during the financial year 2009-2010.

34. The Empowered Committee also received from Governments of Jammu & Kashmir and Himachal Pradesh Rs.3,31,21,000 towards VAT Computerization in the States of Himachal Pradesh and Jammu & Kashmir during the financial year 2009-2010.

35. The Annual Accounts of the Committee for the financial year 2009-2010 containing Income & Expenditure Account and Balance Sheet are annexed:

**THE EMPOWERED COMMITTEE OF STATE FINANCE MINISTGERS: NEW DELHI**
